-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

4. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Joshi (4,017,574).

Joshi discloses a process for making a multicolored soap bar comprising multicolored soap bars of a variety of colors (col. 2, lines 25-col. 3, line 21) and antibacterial agents (example 3).

Joshi does not teach each of the colors in specific layers.

It would have been obvious to one of ordinary skill in the art to disperse the various colors in a specific layers as claimed because specific colors or layers have been held that matters relating to ornamentation or aesthetic design changes which have no mechanical function cannot be relied upon to patentably distinguish the claimed invention from the prior art *In re Seid* , 161 F.2d 229, 73 USPQ 431 (CCPA 1947).

5. Claims 1, 21-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sonnenberg et al (6,673,756).

Sonnenberg et al disclose a multiphase soap comprising two or more phases and each phase comprise different dyes (col. 27 and 28, claims 1-5). Sonnenberg et al further teach that said bar comprises an object for advertising purposes such as a toy of gold or similar materials (col. 21, lines 50-col. 22, line 16).

Sonnenberg et al do not teach each of the colors in specific layers.

It would have been obvious to one of ordinary skill in the art to disperse the various colors in a specific layers as claimed because specific colors or layers have been held that matters relating to ornamentation or aesthetic design changes which have no mechanical function cannot be relied upon to patentably distinguish the claimed invention from the prior art *In re Seid* , 161 F.2d 229, 73 USPQ 431 (CCPA 1947).
